PREVIOUS EMPLOYMENT / ROLES

The Parts Alliance, Chester – IT Administrator / IT 1st Line Technician

September 2019 - August 2022

After College I had left McDonald's to work as an IT Admin where I could further develop my IT skills in a professional work environment for the UK's leading car parts supplier. Here, I upheld the integrity of the company's employees' data and access rights to secure their computer systems. I was promoted to the 1st line IT support team where I'd resolve technical software and hardware issues either via phone call or our ticketing system.

McDonald's, Broughton Shopping Park – Crew Member

March 2018 - September 2019

I worked here part-time while studying IT at Coleg Cambria. I worked on the shop floor taking orders, handling money, speaking with customers, running the lines, etc.

EDUCATION

Manchester Metropolitan University, Cyber Security

September 2021- Present

Throughout my IT journey I have developed a passion for learning. I found Cyber Security interesting, which changes day to day, so there are always new skills to learn and apply these skills for good.

Coleg Cambria, Deeside

September 2017 - June 2019

At Coleg Cambria, I had chosen to study Information Technology (IT) to give me a good foundation to develop my IT skills.

Connah's Quay High School, Deeside

September 2012 - June 2017

At CQHS I studied all mandatory subjects, for my options I chose to take Computer Science, Business and Engineering.

PERSONAL STATEMENT

I'm hardworking and proficient with any challenges I'm presented with. I have great problem-solving and analytical skills which I've developed over my career. I have a passion for learning and developing my skills in Cyber Security. Over the years of education and work experience, I have built a great foundation of IT skills and now I've directed my focus towards securing computer systems and networks so I can have a positive impact on my work as this is important to me.
